Re: State of California Redistricting

Chairperson Dai:

At its meeting on April 19, the Campbell City Council reviewed and discussed the issue of redistricting as it relates to impacts upon Campbell residents and having their voices fully heard at all levels of government.

At this time, our City's principal position is that Campbell be kept entirely in one legislative district. It is critical that municipal borders and communities of interest are respected in the redistricting process.

We appreciate the transparent process being used and thank you for allowing this opportunity to weigh in. Campbell staff and officials will continue to monitor the Commission's work and may provide additional input as you refine your recommendation.

Sincerely,

Jason T. Baker
