California Citizens Redistricting Commission

Roadmap to Final Maps

Participating in the Process

The Commission has dedicated October and November to reviewing geographic areas for potential district ideas, also known as visualizations. Your input is vital to this process as we visualize community groupings for potential congressional, State Senate, Assembly and Board of Equalization maps.

Draft Maps were released November 10th, earlier than the mandated **November 15th** deadline. Final maps are due no later than **December 27, 2021**.

Through this entire process, we welcome your input, which will help shape the draft and final maps. Provide immediate feedback here: https://airtable.com/shrQDD2ta2emnSzzO
