Barbara,

We have just received notice from Sacramento County Neighborhood services, regarding a redistricting meeting which is being held soon.

Please add our organization to the groups on your out-reach list.

We also feel that there needs to be East Indian representation on this commission because this community represents a significant number of small business owners, as well Voters.

Further one of the first Immigrant representatives was an East Indian – Congressman Dalip Singh Saund, the second East Indian Was Bobby Jindal who is currently Governor of Louisiana.

The local California East Indian Community has been active in local, state and national politics.

We would be interested in representing this community, primarily because our primary work is with the East Indian youth. This generation is the future of our state and nation. We have close links with East Indian's in this generation group. However we are not limited to this generation and in respect we reach out across religious and cultural boundaries to all East Indians.

Further we are active in the area of building Multi-cultural bridges between california's rainbow of cultures, in this respect we have partnerships with APAPA and other organizations.

Please add our group to your list of contacts, we appreciate your time, energy and consideration of our request.

Thank you.
Inderjit kallirai
