

Los Angeles (2009/02/23)

M/Chair,

I am Jim Wright, a voter from San Jose.

I have constructed a sample containing the information which is probably needed in the application form. This is NOT a finished product, but needs much additional work, both on the content, wording and format. I offer it as a suggestion which incorporates points made in the previous meetings along with items derived from the act itself.

First, there may be items to be added. Secondly, some may need to be removed or altered.

The finished form should be available in three ways.

1. On the WWW as a PDF file that can be filled-in and submitted much like some of the Income Tax Forms are.
2. By phone. Need a phone number with voice-mail to receive the name and address of the requestor.
3. To be mailed in response to a mailed-in request. Need an address to which candidates can send their request.

We can go through this sample item by item, if you wish.

.....

Thanks,  
Jim Wright
