Dear Commission,

As a close observer of the redistricting process, I wanted to thank you sincerely for your nomination of a Native American as a Commissioner representing the peoples voice for fair elections. I have read Michael Ward's information and watched his video interview and believe he is the perfect choice to represent me and other Native Americans in the redistricting of California. As a politically involved Choctaw Indian myself, I was truly inspired to see the success of one of 'our' own and have full confidence that your commission will fairly and justly represent all of California. The openness of your work is refreshing, and your effort to include the Native population reassuring. Thank you and God bless your road ahead!

Warm regards,

Tony Falcon
