**To:** Voters First Act  
**Subject:** Please do not leave out the North Coast

To whom it may concern:

I am a cattle rancher on the North Coast, I live in Ferndale. My family has lived here since the 1860's. We are still conducting business in agriculture here on the North Coast because it is such a unique setting. It has a mild marine climate, deep alluvial soils and abundant water. Not to mention our timber resources are the largest in the state. All of these factors make the North Coast unique and that calls for a local resident to represent our small but prosperous population. I would like to recommend Byrd Loctie as our representative commissioner.

Sincerely,

Jay Russ
