

**The Los Angeles Times** interactive page allows users to analyze the districts in detail and to make comparisons with the existing districts. You can even conduct searches on specific addresses to locate your district. Here's the link:

<http://www.latimes.com/news/local/la-redistricting-map,0,6145644.htmlstory>

**The Advancement Projects's** web site ([www.redrawca.org](http://www.redrawca.org) ) now has the first draft maps loaded into their mapping software. Here's the link:

[http://www.healthycity.org/c/redistrict\\_view](http://www.healthycity.org/c/redistrict_view)

Use the "Zoom to" tool to look at specific districts and areas. If you're interested in getting a lot of data or making comparisons with multiple layers of districts, the web site is quite useful.
