Hello, thank you for your work & this opportunity to speak

"The world is in serious trouble. The fundamental values of this Nation are being undermined. There is continued crumbling of principle, virtue, integrity and religious values -----the foundation stones of civilization and the definitive ingredients of peace and happiness. {Elder Richard Scott 5/2011}: BY U.S. Government"

Along with several citizens of Fallbrook, we became 'real-time' witnesses to the accuracy of this statement at a Wednesday night San Diego County Board of Education Meeting. You won't read the story in any newspaper or hear it on the news; but every word of Elder Scott was at work, against the parents of Fallbrook schools.

BTW

BTW

The Statement of Elder Scott and the witness of the words at the Court Board of Education bring the relevancy to this Public Input meeting regarding the placement of district lines in relation to prioritized criteria #1. Draw the districts with equal population, based on the U.S. Constitution: Amendment XIV.2 "Representatives shall be

appointed among the several States according to their respective numbers, counting whole number of persons in each State." And The Preamble "We the People of the United States in Order to form a more perfect Union...".
2. Rank ~~these~~ ^{these two} reflected "The individual component of the polity is the person, which is defined as any being consisting of or having the essential cognitive attributes of a member of the species homo sapiens, including both the capacity to compete with others for the means to exercise the natural rights of life, liberty, and the pursuit of happiness, and the capacity to regulate its competitive actions to avoid depriving others of those rights and to sacrifice itself for the greater good of the polity as a whole or for their common posterity."

Question

By Ron Roland

Declaration of Constitutional Principles
www.constitution.org/constitution/

#2 of our Citizens Redistricting Committee is compliaee with the Federal Voting Rights Act to ensure minority voters have an equal opportunity to elect candidates of their choice. Perhaps, you don't hear the difficulty inherent in the use and definition of these words; but there is difficulty; here AWARD

Because our Constitution doesn't recognize "minority" anymore than it does rich, poor, color and any other characteristic of 'homo sapiens'; and because the Supreme Law of the Land derives from God's Law when each member of this commission starts to draw that redistricting line anywhere in 58 countries of this State; remember 1 man: I vote is the Voice of 'We the People' who give consent to government....not the other way around.

TESTIMONY OF JANTIMA DANFORD
At Public Hearing Held By
COMMISSIONERS OF CITIZENS REDISTRICTING COMMISSION
For The State of California
DATE: MAY 13, 2011 LOCATION: SAN MARCOS

#13

05.13.11C -

My name is Jantima Danford. I am the President of Thai-American Association of San Diego.

There are significant numbers of Asian Americans Pacific Islanders (AAPI) that live in and interact socially and economically between the cities of Oceanside, San Marcos, Carlsbad, and Escondido which are collectively referred to as North County. AAPI in these areas make up a community of interest. I live in Oceanside and I am a member of a Buddhist temple in Escondido. Thai members of my temple similarly live in the surrounding North County cities I mentioned. There are other Asians who go to a Buddhist temple in Vista. I am also President of the Songkran Festival (which is the Thai New Year Celebration) held annually in Escondido.

I ask the Commission to draw a district that keeps Oceanside in an Assembly district with other connecting communities of interest in San Diego County and not put it in Orange County. Oceanside has nothing in common socially or economically with the wealthy coastal communities of Orange County except a coastline. Oceanside has been represented by an Assemblymember from Orange County for the past ten years. Oceanside needs a San Diego representative who will listen and respond to the needs of Oceanside.

The face of Oceanside has changed in the last ten years. According to SANDAG, the San Diego Association of Governments, the Asian population in Oceanside increased 23% as did the Hispanic population. The Hawaiian & Pacific Islander population increased by 4%. The Caucasian population decreased by 6% and the African American population decreased by 25%.

AAPIs contribute socially, culturally, and economically in the City of Oceanside and other North County cities in our County, not Orange County. Oceanside, Vista and Carlsbad are known as Tri-City because those residents are frequent users of the business, health and social institutions in those cities. Tri-City Medical Center in Oceanside and the Tri-City Wellness Center in Carlsbad primarily serve Carlsbad, Oceanside and Vista as well as surrounding communities in North County. AAPIs also attend Palomar College and Cal State in San Marcos.

Please keep the City of Oceanside together as a community of interest. Keep Oceanside together with other similar North County communities so we can elect a representative from San Diego County who will be responsive and accountable to our views and needs.

Thank you for your consideration.

Talking points for redistricting committee:

The cities of Oceanside, Carlsbad, Vista: *San Marcos*

- Share a hospital district
- Participate in a boundary drop and mutual aid for emergency services
- Have overlapping school districts
- Use the major transit corridors in common (I-5, Hwy 78, Coaster, Sprinter)
- Conducts regional planning through SANDAG

#15

~~_____~~
- 05.13.11 D

Currently Oceanside is cut off from two-thirds of the 73rd Assembly district by Cam Pendleton and requires our assembly member to have a second district office.

If the commission's goal is to put communities of interest together, then Oceanside, Carlsbad, Vista and San Marcos should be within the same Assembly and Senate District.

Carlsbad is important to Oceanside. 78 ends and Oceanside and Carlsbad flow easily together with 101. South Oceanside used to be part of Carlsbad.

TESTIMONY OF GAGANDEEP KAUR
At Public Hearing Held By
COMMISSIONERS OF CITIZENS REDISTRICTING COMMISSION
For The State of California
DATE: MAY 13, 2011 LOCATION: SAN MARCOS

My name is Gagandeep Kaur. I have lived in San Diego County for 13 years and am a financial analyst. I am Vice President of The Sikh Foundation San Diego in Poway. I am co-founder of the Poway Interfaith Team, the interfaith group of Poway, and am familiar with many faith based leaders and places of worship in Poway.

Sikhs are South Asians, and in large part, are immigrants. Many Sikhs came to the U. S. as students or professionals from India for a better life. They tend to stay cushioned and insulated as do other South Asian communities.

Sikhs contribute socially, culturally, and economically within the City of Poway and with other surrounding communities in the northern part of the City of San Diego. They have young children who go to school and are active in extra-curricular activities throughout Poway. They are middle class or upper middle class and have similar levels of education and earnings per capita as other Poway residents.

There are about 150 to 200 Sikh families in San Diego. The majority of them live in Poway, Mira Mesa, Rancho Penasquitos, Sabre Springs, and Rancho Bernardo.

There are two Sikh temples, one in Escondido and one in Poway. The Poway temple is the oldest built Sikh institution and is very active in the greater community.

Some Sikhs are business owners of 7/11s and gas stations. But the majority work for Qualcomm, NCR, Sony and other corporations in San Diego and are professionals with higher education levels than a Bachelors Degree.

They are residents of the U.S. who earn a living, pay taxes, raise their children to provide every opportunity that the US affords them while still keeping their cultural and spiritual identity. They have more in common socially and economically with other South Asian communities in Poway, Mira Mesa, Rancho Penasquitos, Sabre Springs, and Rancho Bernardo than with other areas of San Diego. In Mira Mesa, there is a business area on Black Mountain Road where many South Asians own or operate Indian-cuisine restaurants and other retail businesses such as groceries, imports and other products of India. These ethnic businesses draw South Asians from all over the county.

Our Sikh community together with other South Asians constitute a community of interest. I ask the Commission to draw a district that keeps the City of Poway whole.

In addition, I ask that the City of Poway be joined with Mira Mesa, Rancho Penasquitos, Sabre Springs, and Rancho Bernardo which share common social and economic community of interests.

Thank you for this opportunity to present this testimony.

TESTIMONY OF RAMESSES SURBAN
At Public Hearing Held By
COMMISSIONERS OF CITIZENS REDISTRICTING COMMISSION
For The State of California

DATE: MAY 13, 2011 LOCATION: SAN MARCOS

My name is Ramesses Surban. I have lived in Rancho Penasquitos since 1985. I've grown up there and attended schools in the Poway Unified School District. Prior to enrolling in law school, I was an urban planner for six years, most recently serving as a consultant for the Department of Defense. I am also a husband and a father of a one year old girl with another on the way. I serve as a council member on the Rancho Penasquitos Town Council, a policy making body representing and promoting the activities and interests of all Rancho Penasquitos residents.

There is a significantly large population of Asian Pacific Americans (APAs) located in Rancho Penasquitos as well as other surrounding communities such as Mira Mesa, Carmel Valley, Rancho Bernardo, Scripps Ranch, 4S Ranch, Carmel Mountain Ranch, Sabre Springs and Poway. I am familiar with these areas. APAs in these communities constitute a community of interest because they share similar social experiences such as preserving their culture, assisting their immigrant family members who do not speak or understand English, and respecting people of color. They also share similar economic interests of middle class families who want to maintain a good or better life for their children through education and hard work.

Filipino Americans constitute the majority of APAs in this area. Many are military servicemembers or otherwise employed by the DOD. Thus the military bases in San Diego County, including MCAS Miramar, Camp Pendleton, and Naval Base San Diego, serve as social and economic hubs for them and their families.

APAs from this region go to Mira Mesa and Kearny Mesa because of the abundance and variety of APA owned or operated businesses including restaurants, retail shops, supermarkets, specialty markets and import stores specifically catering to the needs of APAs. I have attached maps showing where Asians live in Rancho Penasquitos, Mira Mesa, Carmel Valley, Rancho Bernardo, Sabre Springs, Scripps Ranch, and Poway.

It is my request that the Commission keep together Mira Mesa, Rancho Penasquitos, Carmel Valley, Scripps Ranch, 4S Ranch, Carmel Mountain Ranch, Sabre Springs, Rancho Bernardo and Poway. These communities all have significant APA populations that share similar social and economic interests.

Thank you for the opportunity to present this information about my community to you.

05.13.11G - #20 Jose Fragozo

Based on the population figures for Escondido, San Marcos, Vista and Oceanside, it looks like a new 74th. A.D. could be redistricted to be defined by the combined boundaries of those four cities. The 2010 census figures for the state require each each Assembly district to be as close as possible to 465,684. The total population of the four North County cities is 486,612, which is 22,938 over the ideal A.D. population but the deviation percentage is only 4.93, which is within the deviation limit of 5 percent set by the Citizens Redistricting Commission.

Here are the population figures for those four North County cities:

<u>City</u>	<u>Population</u>	<u>Latino</u>	<u>%Latino</u>
Escondido	143,911	70,326	48.87
San Marcos	83,781	30,697	35.88
Vista	93,834	45,380	36.64
Oceanside	167,086	59,947	48.36
Total	486,612	206,350	42.23

I think it can be argued that those four cities are a "community of interest" because:

1. All four cities are served by CSUSM and Palomar Community College; *Mcosta College*
2. All four cities are connected by State Highway 78 and are served by the Sprinter;
3. All four cities share access to a commercial corridor along Highway 78;
4. All four cities have a large Latino population, ranging from 35.88 percent to 48.87 percent, which means all of them share similar challenges in providing educational and other services to a growing Latino population;
5. All four cities have a tradition of observing festivals, holidays and traditions common in the Latino culture, e.g., swap meets, cinco de mayo, guelaguetza, posadas, etc.;

The new 74th. A.D. we are proposing would be "compact and contiguous," as required by the redistricting principles being followed by the Citizens Redistricting Commission, since it would consist of four adjacent cities connected by a commonly traveled state highway that can take a person from one end to the other end of the proposed district.

California voting right Act.

California Citizens Redistricting Commission

Public Input Hearing

Friday, May 13, 2011

California State University San Marcos

McMahan House Great Room

[Redacted] San Marcos, CA 92096

6:00 pm – 9:00 pm

My name is Fabiola Gastelum and I live in Vista, CA and I have been a resident of North County for the past 17 years. Vista is located in the 74th assembly district, 38th senate district, and the 49th congressional district.

My community is representative of other areas in North County that are situated along the 78 freeway. The zone is bordered by the Pacific Ocean to the West, Riverside County to the East, and Orange County to the North. North County is the second most populous region in San Diego County after the City of San Diego (population 1,307,402) compared to 658,779 in North County cities and 486,604 in unincorporated areas (U.S. Census, 2010). Approximately forty miles north of the San Diego, CA, U.S. – Tijuana, BC, Mexico Border, North County has been home to predominantly White and affluent communities. Whites are still majority in the county; however, North County became more diverse with increase in Latino, Asian, and Pacific Islander communities during the last two decades. Latinos now comprise 26 percent of North County's residents (U.S. Census, 2010). The cumulative population in Oceanside, Vista, San Marcos, and Escondido is 488,612. In Vista Latinos became the majority group in 2010, now comprising 48% (compared to 41% White and 4% Asian) of 93,834 residents and 49% (compared to 40% White and 6% Asian) of 143,911 residents in Escondido. In Oceanside Latinos are 36% of the population (compared to 48% White, 6% Asian) of 167,086 residents and 37% of the population (compared to 49% White and 9% Asian) of 83,781 residents in San Marcos. African American and American Indian population decreased (U.S. Census, 2010).

Some neighborhoods with higher concentrations of Latino residents within each city are afflicted by commonly identified challenges including high rates of poverty, high unemployment rates, low levels of parental education, and higher school dropout rates. The poverty rate for individuals in San Diego County overall is 12.4%. For example, in the Townsite neighborhood of Vista where over 52% of residents are Hispanic, the overall poverty rate for individuals is 15.6% and ranges from 13.9% in CT 195.03 to 25.1% in CT 195.01. In San Diego County, the average high school graduation rate among Hispanics is 75.7% as compared with a 90.55% graduation rate among White students, and Vista is in the top five school districts in San Diego County for dropouts in grades 9-12 (San Diego County Report Card, 2005, calculated for 2003/2004). In the Vista Townsite neighborhood only 16% of residents are high school graduates. Additionally, 25.8% of Vista students are classified as English Learners with Spanish as their primary language. The median household income is \$62,758 in Oceanside, \$60,223 in Vista, \$60,903 in San Marcos and \$56,259 in Escondido compared to the county's \$62,820 (U.S. Census QuickFacts). 33% of the population in San Diego County reports speaking a language other than
