Dear Commissioners,

I would like to request that one of your highest priorities be to **bring all cities/communities into one Assembly district**. Currently my city (Escondido, in north San Diego County) is split by two Assembly districts - the 74th and the 75th. Not to mention the extra costs associated with printing election materials for one city, but the confusion for citizens here makes it difficult to know who is your Assemblyperson.

Thank you for your consideration!

Sincerely,

Michael and Marie Waldron
