Commissioners,

Comments were made today that logistics in Northern California are different than So California in regards to meeting times.

Santa Rosa's one day meeting includes Marin, Napa, and Sonoma counties, this is a vast geographical area. 5:00 PM is too early for working people. I suggest 5:30-6:00pm start time. Perhaps, the commission is not familiar with the traffic patterns and road construction in this area of California.

Thank you,

Sally Hopkins
