I sincerely hope that the committee relines this district to give the Palos Verdes Peninsula and Long Beach fair representation. This district is so gerrymandered it is ridiculous. This district is only one street deep along the ocean at Long Beach and San Pedro but does widen to grab the Ports of LA and Long Beach. Please split us off from Orange County and create a fair homologous district. My suggestion would be to stop the 46th District at the LA/Orange County line. The 54th State Assembly District is also idiotic due to the same reasons. No fair representation of local interests.
