Comments have been made that the area of Indian Wells Valley in East Kern county (Ridgecrest) should be aligned with San Bernardino or Los Angeles county because of its location and major employer. Ridgecrest/China Lake are in Kern County. We receive county services from Kern County. Courts are operated under Kern County. Why would we be better served if we were aligned with other counties? We would not receive services from those counties. Our votes would not count. We should be represented in the legislature by people in our county. I urge you to not change the voting district such that we would be excluded from having a say in who represents us. Why change the political district lines now? Respectfully, Phillip and L Celeste Roper, Ridgecrest, CA
