Dear Members of the Citizens Redistricting Commission:

We have attached 407 letters from Long Beach citizens who have joined our call for keeping Long Beach together. We believe Long Beach citizens will be best served by remaining in Los Angeles County in the final outcome of the redistricting process.

The Commission is working to ensure that districts are not divided up into different counties, and we support that position.

Thank you for your service to California, and for holding one of your public hearings in our city!

Sincerely,

Councilmember Robert Garcia

Dear Members of the Citizens Redistricting Commission:

As Long beach is the 5th largest city in California (or 7th, depending on which "survey" you use), the sheer size and impact of the city should preclude any division of its representation or lessen the effect of the resident's voices.

Who in Orange County would really listen to a small group (the Long Beach residents) from the "Other" county?

Long Beach is in Los Angeles County, and should and should STAY in Los Angeles County. Do NOT group us with Orange County. They may be nice people, but they only care about Orange County!

Thank you for holding one of your public hearings in our city! (And, you'll have a much nicer time here!)

Sincerely,

Rich Carry

Dear Members of the Citizens Redistricting Commission:

I strongly support keeping Long Beach together by ensuring that all of Long Beach remains in Los Angeles County in the final outcome of the redistricting process. We are the fourth or fifth largest city in the state, and yet in recent years we have been gerrymandered into several separate Congressional and state districts going from Palos Verdes to Huntington Beach! Ridiculous! Long Beach needs better representation by someone who is focused primarily upon the needs and assets of the City.

We know that the Commission is working to ensure that districts are not divided up into different counties, and we support that position. We do not want Long Beach neighborhoods thrown into the representation of Orange County.

Thank you for your service to California, and for holding one of your public hearings in our city!

Sincerely,

Carol Susan Rivard
