

From: KarenMarie T. Dwyer [REDACTED]  
Subject: redistricting

Message Body:

I live in Bixby Knolls area of Long Beach and have found that our ethnically diverse area has been included in the homogenous area of Compton, even though the socio-economic goals of each area is sometimes incongruent. Subsequently, there is an inadequate representation of those citizens in my immediate area. I beseech you to consider redistricting us to be a part of the greater part of the City of Long Beach, an urban, highly diverse metropolis with pockets of both lower and high economics, but mostly middle class voters, who are interested in better living for all Long Beach inhabitants. It would make much more sense, issues-wise to include Signal Hill and Lakewood in the Long Beach districts, rather than Compton, given the demographics, statistics and issues facing each of these cities.

thank you and good luck,  
k. dwyer
