Message Body:
Hello,

I could not attend one of the hearings to be held in Southern California so I wanted to submit a comment. I live in El Segundo which is currently located in the 53rd Assembly District, 28th Senate District and 36th Congressional District. With regards to El Segundo, we have a unique location in that we are immediately to the south of LAX airport and are also a Beach City in the Los Angeles region. Thus, there are two "communities of interest" that I feel should be kept in mind when re-drawing the lines of our districts and how El Segundo fits in: 1) All communities surrounding LAX have a common interest, so there should be as much done as possible to keep those communities together as a block when it comes to issues with the airport. These would include El Segundo, Playa del Rey, Westchester and Lennox. 2) As a Beach City, El Segundo has a community interest with other Beach Cities located along the Santa Monica Bay, so it would be preferable that Beach Cities be held ! together in a contiguous fashion. Having stated these two reasons, they actually overlap if one were to keep the Beach Cities together from the north to the south (i.e., Santa Monica down to Redondo Beach), which would also include LAX in the middle. Furthermore, the demographics of the Beach Cities of Los Angeles are similar, so that would meet an additional criteria.

Thank you,
Scott Houston
El Segundo, California
