Subject: Redistricting

Message Body:

I think districts should not be drawn so more voters with similar interests are drawn together into a district. Their voices do not multiply. This only makes it more difficult to have competitive elections with choices. It is almost impossible to knock out the incumbent. I am a life long Democrat but I am sick of guys like Henry Waxman and Howard Berman. We voted for term limits in CA but we are stuck with these guys forever! Districts should be drawn equally so anyone could have a chance to get elected!!!!
