Subject: Community Interest- District 4

Message Body:

I believe district four is a very multicultural area, the lines drawn now indicate we are a very small area, compared to others. I know it is based on population density and voting age, it is a very compact area. I feel a good community is a good place to live. I hope to confirm that statement by keeping the newest addition to our community the Jacob Center. Despite the controversy at times it has the potential of uniting and development of Center for the community for the people by the people. The goal is to give the community a place and a say. To add to this, we need to maintain the population and encourage our young people to vote, and live harmoniously and defeat crime, by assisting our community leaders. We need to add streets that are going to be an asset to our Coalition of Neighborhood Council, we need to add areas that are growing and developing our children. We must be a solid and unified community. Re-districting is more than a line being drawn it is incorporating values,

respect, concern citizens and being able to vote in a positive leader in our community.
