**Conversation:** Redrawn Maps

I encourage the commission to maintain City and County boundaries, making sure not to split communities. Two years ago when I telephoned the state senator I thought was my representative, since his office was a couple blocks from my house here in Modesto, I was informed that the senator I needed to speak with was located down in Merced. That is exactly the reason I voted for the proposition that created this current effort. Please please respect community boundaries, not political affiliations. We need to work together.

Mark McAvoy
