Subject: Please, NO "safe" districts

Message Body:

I don't want any safe districts. "Safe" districts don't have to listen to their constituents. To the extent possible keep each district in play. California does not have a dominant culture or group. We are a well mixed melting pot.

If California the majority of Californians change their voting patterns, then we should see a LARGE change in representation. I will be able to tell how good a job the redistricting commission did by how many seats change hands each election. I don't mean the first election, but each year after that.

Please, NO SAFE SEATS!

Rob Morse
