To whom it may concern,

How about drawing these lines to make some sense. Don't break up communities. Keep the lines in the creeks, valleys, freeways except when the freeway goes through a community like Rancho Bernardo. Let us not start segregation again. We are all Americans with the exception of the illegals. To draw lines according to race is really un-American!!! The 13th Amendment to the Constitution abolished slavery along with the 14th for equal rights and the 15th for voting rights of the slaves. To draw lines for political reasons is also un-American. Good grief Californians passed prop 14 and now we are talking about political parties. Don't get me wrong, I did not vote for prop 14. Just do it so the numbers of the population are equally divided and keep the districts as much in one clump as possible. Don't stretch them like the length of the coast or the length of the border, No more gerrymandering!!!!

One really bad example is the RB/Poway/4S Ranch/Penasquitos/Scripps Ranch area. There are 3 congressional Districts. 3 Supervisor Districts, 2 State Senators and thankfully only 1 state assembly district. When Rancho Bernardo Republican Women have a meeting, we have to invite 9 field reps for reports and add one for the San Diego city council. That is 10 districts represented. Where as it should only have to be 5 reports. That is what you call gerrymandering and it should be illegal.

So stop the nonsense, loose the baggage, we are all Americans. Do it by the population numbers. Without our skin on our bodies, we are all the same color, red/white/blue. It is not the skin color, it is how the brain thinks. Oh by the way, all my blood lines are German. Where is my district?? I don't need one because I am an American.

A United States of America Citizen by birth,
