Conversation: Redistricting

I am an 87 year old resident of the Coachella Valley, Palm Desert to be exact. I don't understand the reasoning for combining our valley with Imperial Valley. We are two entirely different communities. Even though we do have agricultural communities in our vicinity, we are basically a tourist, cultural and retirement area and have little connecting us to the lifestyle of those living in the Imperial Valley who are basically in an agricultural environment. There is nothing wrong with this as we desperately are in need of their services and products. Their issues and problems are far from those needed in the Coachella Valley.

Please keep the Coachella Valley in Riverside County as its own community.
