Subject: Shape of the San Fernando Valley

Message Body:

I agree strongly with the editorial of the above name which appeared in today's Daily News. Without repeating every point which was made in this editorial, I want to add my voice to the hopefully many others who agree with the above mentioned editorial that it's shameful that the San Fernando Valley has only three live-in representatives in the state Legislature.

It is practical, and is essential, that the Valley contain more whole districts than it currently enjoys. This shouldn't be hard considering the size of the Valley. Within its 260 square miles are about 1.8 million people, most of them living in the same city of Los Angeles.

The SFV should not be chopped by various other cities and thereby lose representation of politicians. Please keep the San Fernando Valley whole.
