Thank you Commissioners for hearing us. Having a coastal and a separate inland district, unifying Escondido into one district with its agricultural roots is perfect. Bravo!

Sincerely

Marie Waldron

I am very upset with how you have slashed my district, Linda Vista, I live to the west of the 163-805 cross.

For State Assembly, you have taken me from Central San Diego and dragged me to Northeast suburbs, I cry fowl!

For State Senate, you have done same thing, I see this map as Republican gerrymandering, the whole point of the proposition.

For Congress, yuo have done the exact same thing, split up Central San Diego and dragged it into Northeast suburbs, stop!

Restore north central San Diego which is urban and low-income, to its rightful place with South Central San Diego!

Thank you!

Subject: Showing map legends

Message Body:

I appreciate the ability to drill down into the various draft maps. Does the technology exist to show the map legend on each page where you display a map? That might make it easier for those of us who are inexperienced with your maps to contrast the old lines with the new lines.

Message Body:

How can I get a more detailed map of district 50? Is it getting much larger to encompass La Jolla?

Subject: Chula Vista

Message Body:

I have lived in Chula Vista less than 2 miles from the coast for 35 years. I am dismayed that once again we will be lumped in with Imperial County. I feel no affinity to that region and do not see the connection to Chula Vista. I would not feel well represented by a congressperson who had to also deal with the very different needs of Imperial County. Please consider including Chula Vista in a district with more like communities along the coast.

I and others commend the commission on shifting the districts around in at least the San Diego area and creating coastal districts. Districts focused on the coast as their core.

This means that needs of the inland and coastal areas and even in the middle are not diluted. People on the coast have completely different needs than inland peoples. Thank you for recognizing this. Now we will see more down now that the political camps have separated.

Subject: US Congressional Districts

Message Body:

The balancing of populations per district while keeping districts to near community wholeness is never easy and will always have critics. Still, we are

Looking at [http://c365736.r36.cf2.rackcdn.com/maps\\_20110610\\_q2\\_cd\\_social\\_nesan.pdf](http://c365736.r36.cf2.rackcdn.com/maps_20110610_q2_cd_social_nesan.pdf)

I am concerned about the pinched forcedness around Del Mar, National City and Rancho Bernardo.

To me it still looks to be protecting some moneyed interests at the expense of enabling neighbors to have all their views brought to the voting booth.

Another comment earlier deserves repeating:

"Voters should choose their elected officials, not the other way around.

When politicians' electoral districts become safe, the public is put at great risk.

Competition is very healthy and vital for the preservation of effectively functioning representative democracy.

Keep each district geographically compact with a tight radius and none that look like string beans or lightning strikes.

Don't be partisan!"

El Cajon, CA 92020

June 16, 2011

Citizens Redistricting Commission  
901 P Street, Suite 154-A  
Sacramento, CA 95814

Dear members of the California Citizens Redistricting Commission,

The eastern San Diego County communities of Alpine, Borrego Springs, El Cajon, La Mesa, Lakeside, Lemon Grove, Jamul and Santee have a long cooperative and proactive history of functioning as a unified and cohesive socioeconomic unit with shared geographic and cultural qualities.

We ask that you preserve these communities' rights to be associated with their neighboring communities, with whom they share numerous common ties. These include major transportation networks, school districts, water and energy infrastructure, public safety and fire protection, and economic development programs.

We appreciate the transparent public process the Commission is undertaking in compliance with the Voters FIRST Act of 2008. Your efforts will be critical in achieving districts that are geographically compact and contiguous and respect the geographic integrity of cities, counties, local neighborhoods and local communities of interest. We believe that the spirit of the act, as presented to the voters of this state, is consistent with our request to keep our community of interest intact.

We greatly appreciate your consideration of the needs of the citizens of East San Diego County and believe that keeping all our East San Diego County communities together within one State Assembly District achieves all the goals of the Voters FIRST Act.

Thank you for providing us with the opportunity to comment on the 2011 State redistricting process. Please let us know if we can provide you with any additional information on our unique community of interest in East San Diego County.

On behalf of the over 800 member companies of the San Diego East County Chamber of Commerce, and the coalesced communities we serve, we respectfully request that the Redistricting Commission allow the citizens and businesses of San Diego's East County to retain our long-standing and easily identifiable community of interest within one State Assembly District.

Sincerely,

A handwritten signature in blue ink that reads "Joe Mackey". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Joe Mackey  
Chairman of the Board of Directors

Subject: State Senate Redistricting

Message Body:

Extending the Escondido, Rancho Bernardo, Poway area to include areas west of the I-805 is ridiculous. I live in the Golden Triangle enclosed by the 5/52/805 freeways. This community has NO commonality whatsoever with the inland neighborhoods that border I-15. We are a coastal region that just happens to be east of the I-5 rather than west. I would ask that the Commission redraw its proposed maps accordingly so that our area remains in the same Senate district as the coastal communities.
