My husband and I are both registered voters living in Crestline, CA. We are very much against the proposal of redistricting which would result in the community of Crestline being included with San Bernardino instead of the other mountain communities. We feel this would adversely effect the representation that our citizens justly deserve.

Thank you for noting our objection.

To Whom It may Concern,

I want to know why the mountain communities have been divided!!!! We are communities that share the same life - the same benefits and the same struggles. We have been through major fires, ice storms, snow disasters together and understand the needs for what it takes to live in these mountains. I have been a resident of Crestline for over 30 years and my children grew up here and went to school and played sports with and against the other communities up here from Cedar Pines to Arrowbear. How can you separate us???? The cities and areas down the hill have no clue to what we are about. We realized this everytime our school played sports against the schools below. We have always thought of ourselves as ONE COMMUNITY - we introduce ourselves as from THE MOUNTAINS!!!! Please put us back!!!!
