Subject: Whittier California

Message Body:

I live in Whittier. We have about 80,000 people. But our district is ABSURDLY cut into 3 representatives. None of which really care about Whittier, because we are all small parts of their overall districts.

PLEASE GIVE US ONE DISTRICT!!!

And because we are so diverse, I think we can actually be a part of a competitive district, not just some automatic Republican or automatic Democratic district.

You have a great opportunity to help our community AND ALL SIMILAR communities.

Please do.

Subject: Keeping geographically related communities in same district

Message Body:

Am petitioning the CRC to work with the contiguous "communities of interest" in the Northern Sierra Madre Foothill Mountain 'Gold Line' cities of Arcadia, Sierra Madre, Monrovia, Duarte, Bradbury, Glendora, Azusa, La Verne, & Claremont to maintain each metropolitan goal of social, educational, political, economic, geographic, and commonality of equally shared interests.

- ALL the above cities are threaded (both current and future) by the Metro Gold Line extension that will network mutual resources into a bond of shared interests
- These cities depend upon the financial flow of traffic linking utilities of common infrastructures and local government councils with ties to similar services required by each city
- While these communities will continue to grow and expand in populations, commercial, residential, agricultural, and educational institutions become increasingly inter-dependent upon neighboring resources
- These 'communities of interest' are under the same inter-city law enforcement, fire control areas, watershed, electrical development, waste management, medical & hospital support systems, similar living standards, common goals, same media of communication relevant to the election process, & commuter transportation facilities
- There is already a high diversity beyond 5% in these cities complying with the federal Voting Rights Act criteria for equitable legislative representation (e.g., Asian-Americans and other 'minority' groups are reportedly over 60% in Arcadia alone).
- Southern-most cities like El Monte, Alhambra, San Gabriel should NOT be included in this redistricting as they do not contribute nor share in the above 'communities of interest'.
- Neighbors on same streets in the same city have been 'gerrymandered' into separate precincts leading to much confusion and misunderstanding of how they're being constituted and balloted

Before the commission draws the legislative lines, please review the attached maps as an illustration for fair and balanced representation of an equitable legislature in California in the Los Angeles County, Northern San Gabriel Valley district. Your consideration is critical to the future prosperity, growth, and equal legislative delegacy of these cities. Please keep the redistricted areas fair and balanced for ALL Americans, and not just favored to other hyphenated 'minority' groups (or the 'new' majority).

Thank you.

Dirk L. Hudson

Subject: 55th A.D. & 37th C. D.

Message Body:

I would like to see Carson remain solid and not split in the 55 AD and 37th CD. I would also like both Districts moved south to include the San Pedro and Wilmington areas. I believe Carson is more compatible to the areas south of Carson and less compatible to the areas north of Carson.

Thank you,

Brian Raber

Message Body:

My concerns being group with communities with low education, and a high ilegal population that do not vote, or participate in the civic duties of citizens, keeping us a very low minority of legal residence and citizens, unable to collaborate for the better of our community. The high percentage of ilegals families, unable to speak English, no insurance of any kind, dont re port crime for fear of deportation, our communities and our politician cater to the ilegal more than they do citizens, because of the mass number that protest for equal rights, and infrige on our legal rights..
