I am writing this e-mail to tell you that the way you are redistricting is totally crazy and you have no idea what you are doing. I have lived in Simi Valley and Thousand Oaks all my life. Thousand Oaks, Simi Valley, Moorpark, Camarillo need to stay together. There views are the same and we are very connected. Sanata Clarita and Palmdale do not share the same views and Los Angeles is very different from Thousand Oaks. People move away from the big liberal cities to come here and now you are lumping us back together. We now have a big potential to have people voted in who know nothing about our cities nor do they care. After looking at the maps you have now taken away any republicians chance of getting a seat and we will have all liberals who have already run California into the ground. I believe you need to do more research since you have no idea what you are doing and the problems you are gount to cause. Ventura County will no longer have a voice in politics.

As residents of Thousand Oaks, we are opposed to the redistricting. We do not need two Congressional/Assembly and two Senators to represent us.

Re: Region 5 District Maps

To Whom It May Concern:

I am writing to express my concern and disappointment that the Redistricting Commission would suggest that the City of Thousand Oaks should be split into different State assembly and senate districts. As a resident who has lived most of my life in Thousand Oaks – and raised my son here – I do not see a reason to place part of Thousand Oaks into a district that shares representation with the San Fernando Valley. This will result in competing interests in the same city, and makes no sense. Thousand Oaks has always been part of Ventura County, having similar economic, demographic, and density make-up, and using Ventura County services. It is not beneficial to have political representation from Los Angeles County in Thousand Oaks. I urge the Commission to revisit this area, and continue to keep Thousand Oaks whole and part of Ventura County.

Thank you for your consideration.

Sincerely,

Joana D. Smith
