Dear Citizens Redistricting Commission,

Thank you for your efforts. In reviewing your proposed Assembly districts for my region,

Thank you for your effort. I presented a TransSierra  
AD in SD on May 14, Speaker #1. The proposed AD carves  
Mono & Inyo County into an AD w/ Kern (small) and  
San Bernardino - High Desert. I have attached an adjusted  
In reviewing your proposed Senate districts for my region, proposed AD with Inyo  
& Mono County in a TransSierra COI AD. In addition  
I have included the Foothill area of Madera County  
in the TransSierra COI. This would strengthen  
the Valley Hispanic COI which is in more compliance  
In reviewing your proposed Congressional districts for my region, with the desired  
URA Sections 5 criteria.

I will go online to make the additional  
comments for Senate & Congressional Districts.

Sincerely,

Susan Meade Sanders

Redistricting: The Trans-Sierra Assembly District: Isolated and Sparse Population COI

Good afternoon and thank you for the opportunity to speak for a Trans-Sierra Assembly District that would represent the unique isolated mountain communities located on both sides of the Sierra Nevada at the eastern edge of our geographically diverse state. Route 80 to the North and Route 49 to the West are our logical Transportation Corridor boundaries; it also allows for closely maintaining county lines in Placer, El Dorado, Amador, Calaveras, Tuolumne, Mariposa, Mono and Alpine Counties.

There are many economic and cultural similarities that tie these communities together; the anchor is the Sierra Nevada Mountains. The beauty and hardships of the mountains have forged a unique lifestyle in our communities of isolation. Many of our residents first came for the outdoor recreation but made the Western Foothills and Eastern Sierra Mountains home. The sparse population lends itself to smaller "mom and pop" enterprises, the backbone of our communities. Many businesses, retirees and volunteers who live or visit see themselves as guardians of the fragile environment, wilderness areas and national parks. We are committed to the seasonal rhythms of the mountains, the weather and the roads. Our livelihood and passions revolve around the tourist related economy, be it trout fishing, skiing, snowboarding, birding, biking or any level of a walk in the great outdoors. In the summer Yosemite, Sonora and the John Muir Trail are our calling cards for visitors from all over the world.

We believe our steadfast commitment to our mountain environment and its tenacious economy gives us a determined perspective to manage and preserve our autonomous region as an Assembly District.

I also want to say "thank you" to the Redistricting Group at Berkley Law Center, California Common Cause, The James Irvine Foundation and the Greenlining Institute for all their support and education in this redistricting effort.

Susan Sanders
