Subject: Richmond's new congressional district

Message Body:

As a Richmond resident, I am in favor of having Richmond switched to be in the same congressional district as Albany, Berkeley and Oakland, because of shared demographics and geographic continuity.

Marilyn Langlois

Subject: Proposed Re-districting of representation for Oakley and points east

Message Body:

I wish to voice my most vociferous and vehement objection to this not-well-thought-out proposal!

Oakley, Knightsen, et al. are a mix of rural/suburban communities with small remaining agricultural areas. We have NO industry.

Stockton has morphed into a big city with very different demographics and a tax base supported by industrial operations in addition to their remaining agricultural base.

We in the far eastern reaches of Contra Costa County have nothing in common with Stockton, Lodi and environs.

A move to group our area in with theirs is a recipe for neglect and eventual destruction of our already struggling economies.

I vigorously oppose any action to combine our legislative representation because it will inevitably amount to a lack of representation of East Contra Costa County interests.
