Subject: Potential changes in 6th Congressional and Assembly districts

Message Body:

I'm concerned that having the 6th Congressional district extend all the way from Marin County to Del Norte County would create such a large and long district that it would be difficult for the person elected to adequately cover it. I would imagine that those people on the Northern end would feel under represented. While I understand that environmental groups feel that coastal counties should be kept together, there are many other interests, besides the environment, that are not shared by the people of Del Norte, Humboldt And Trinity counties and the people of Marin. I also think that the boundaries of the 6th Assembly district should remain the same as they are now. I don't think that there is a lot of commonality of interests between the residents of Solano county and those of Marin County.

Subject: Proposed new mar in district

Message Body:

The proposed new district as reported in the Marin IJ this morning is ludicrous.

1. It is too large. No one could possibly know, and understand the needs of such a large, diverse area.
2. The issues in Marin and Sonoma are much different than those in the Northern Counties and must have a separate voice that would represent these concerns
3. The issues in Marin are more closely tied to the local metropolitan area than the rural areas proposed

Please reconsider this proposed unrealistic approach

Subject: Possible 6th Assembly District

Message Body:

I am concerned about the proposed changes in district boundaries for the 6th Assembly District line, possibly as far east as Suisun City. The district boundaries should encompass constituents with common interests and needs. Changing the current district lines to as far east as Suisun City would place disparate groups into an incohesive welter.

Please reconsider. Thank you.
