Subject: Watersheds

Message Body:

It is SO vitally important that watersheds are represented and Trinity's is a very vital one. Wherever the lines are drawn should reflect watershed drainage and ours drains westward (then northwest)- It is most definitely time to politically separate us from the central valley. Trinity water is unnaturally tunneled eastward. We need a real voice that recognizes that. So specific lines should take watersheds into account first and foremost.

Sincere thanks,  
Carol A. Rogan
