Please include me in on the legislation that would keep Temecula in the Southwest Riverside Co. Corona should be part of the Northwest Riverside Co. Don't include Temecula in with San Diego County.

Thank you,

Georgia Branco

I think Temecula, Riverside County should be included in the so called Perris Con. district, that covers Southwest Riverside County...(the PRS Congressional district).

Then remove and add Corona to the Northwestern (Riverside Con. District RCMW).

It would seem to make more sense that way, with Temecula in it's "home" county of Riverside with it's twin city Murrieta, instead of being separated again in a San Diego County district. That would definitely be an improvement!

Thank you,

Henry J. & Connie Coviello
