Subject: Redistricting La Habra

Message Body:

La Habra City Council has been beating the drum telling La Habra Residents that they will no longer be a part of Orange County if we are paired with Whittier and South Bay Cities. They are using city staff to contact La Habra Residents and are allowing them to believe La Habra will have their taxes raised and that the county lines will shift. This is because Councilman Tim Shaw wants to run for Bob Huff's State Senate seat. The spirit of this commission is to take political partisanship and self serving politicians out of the redistricting process. La Habra has more in common with Whittier than it does with Diamond Bar or even Brea and Fullerton.

La Habra needs to stay with other Orange County cities to have our needs met. Incorporating it with Los Angeles County will put us on the bottom of the list of meeting our needs of educational, public safety, land use and transportation which will hinder our progress.

Sirs and Madams:

I am sending this email to let you know that I do not want you to put us in Los Angeles County. I have worked hard to buy my home here in Orange County to get out of Los Angeles County. I am proud to be living in North Orange County and feel that it is a misrepresentation to put La Habra down in to La Angeles County which will affect our property values and put us in a place to lose out in educational and community resources. It is much more prestigious to say that my child was educated in Orange County rather than Los Angeles County. I am very upset about this because I could have looked for a community farther into Orange County so as not to be dragged down to Los Angeles. I was raised in El Monte and feel I have worked hard and moved up in the world to be living in Orange County. Please don't drag me back down to lose my social well being.

Sincerely,  
Judith S. O'Neill  
retired educator

## Untitled Note

---

Please don't include Santa Ana with Orange in your redistricting map. Santa Ana is a large City that is ALL urban and that is certainly NOT the character of Orange. Orange has it's small-town charm and Old Towne portions, but it is also a very rural, equestrian community -- which is why we love Orange, for it's charm and character. Orange is NOT a community of Interest with Santa Ana. Orange, Orange Hills, OPA are communities of interest more with the other north-east portions of OC, Anaheim Hills, Tustin Hills. All of these communities are more closely related to each other and share common church communities, shopping areas, community college districts. None of these communities are densely populated urban city-type areas like Santa Ana. All of these characteristics show that we have nothing in common with Santa Ana. Please put Orange back with like communities of Anaheim Hills, Tustin Hills, Orange Park Acres, etc. as you have had in almost every other map the commission has released. The Hispanic community would be better served by representation from communities more closely related like Santa Ana, Garden Grove and Anaheim.

to whom it may concern:

my organization represents asian american communities in north orange county. We strongly recommend your commission to include La Habra as a part of orange county district, not a lonely addition to Los Angeles county's district. La Habra belongs to orange county and the increase of asian population is in progress. thank you.

The redistricting of elected officials needs to maintain an alliance with the County in which City's are located. Representative's from Los Angeles County know nothing of the City's in Orange County and therefore should not be representing the in Washington or Sacramento. Maintain proper representation of La Habra with Orange County Representatives.

Dear Citizens Redistricting Commission,

I strongly oppose putting La Habra in with LA County cities! We are an Orange County city and we need to be represented as such. As a life long resident and voter I urge you to NOT go through with this ridiculous idea. If I wanted to live and be represented as an LA county city I would have already done that.

Thank you,

Edward Guzman

**To:** [REDACTED]

La Habra voting Districts should be part of Orange County and not Los Angeles County. Making them a part of LA Country negates any political say in either county.

Please keep the city of La Habra in a district with other Orange County cities. We are NOT a part of Los Angeles County, and we have different issues and concerns. Our needs will not be met if we are put in an LA district. It just doesn't make sense! We are in Orange County, our representatives need to be from Orange County.

Thank you.

Terri Zarow

Subject: Assembly and Senate

Message Body:

The Senate District WSTAN, which you released is fine the way it is. Please do not change it. Please do not get Buena Park out and replace with La Habra. The efforts in La Habra are the work of a Partisan Republican Councilman named Tim Shaw who is seeking to further his own political career. Currently, La Habra is represented by a Congressman and State Senator from LA County(one of whom Tim Shaw works for) and an Assemblyman from San Bernardino County. Because they are Republican, Shaw has no problem with them. He has a problem with the Democratic cities La Habra is with in the first draft. His actions, misleading people of La Habra, flies in the face of the very spirit of this Commission and you should immediately reject his efforts.

I respectfully ask that you hold the lines as they are and do not take Buena Park out of WSTAN. Your lines for central Orange County as to Assembly and State Senate are terrific and we ask that you do not change a thing. Thank you.

Sincerely,

Claudio W. Gallegos
