Subject: Re 2011-07-11 Assembly Norcal

Message Body:

Mono and Inyo counties shouldn't be split. They form a unique community of interest in light of their separation from the Western Sierra by snow for 6 months of the year and their shared history of water battles with LA. Please reconsider splitting them between two Assembly districts as your map of 7-11 shows. How will a constituent drive to see his/her Assembly(wo)man when the passes are closed by snow? If you put them together then together they have enough population that an office in Bishop might even be feasible.
