Dear Redistricting Commission,

I stood before the Redistricting Commission in Salinas on May 22, 2011 and asked for Fair lines. I stood before the Redistricting Commission in San Jose on May 23, 2011 and asked for fair lines. Please follow the CCAG [California Conservative Action Group] maps which are fair to all. I am expecting a good result.

Thank you.

Subject: Assembly District MLPTS

Message Body:

One of your assignments for redistricting the State of California was to eliminate gerrymandered districts. However, your plan for State Assembly has divided the Evergreen Valley of San Jose and placed the small section East of San Felipe Rd., South of Yerba Buena Rd. with Milpitas, Fremont, and Newark (MLPTS district). We have absolutely nothing in common with Milpitas/Fremont/Newark. But, we have everything in common with the rest of Evergreen Valley(SANJO district) and the City of San Jose. Please recombine this small section of Evergreen Valley with the rest of SANJO District. Splitting up the Evergreen Valley and the County of Santa Clara is a serious abuse of your gerrymandering powers.

I am a citizen of the United States, a resident of California, a homeowner, and taxpayer. I proudly vote in every election I am eligible to partake in and have done so since I reached voting age (18 years of age). I have lived in Evergreen, a small part of the city of San Jose, California, located in the southeast part of the city, for 45 years. When I explain to people I meet that I live in "Evergreen," they understand the geographical reference. Evergreen residents have their own "identity" and that identity is of being "Evergreen" residents and all that implies (a certain level of cohesiveness). I am informing you that state and federal electoral boundaries should NOT split communities like the Villages, the Meadowlands and California Oaks from the rest of Evergreen!
