Subject: District boundaries

Message Body:

Unfortunately, the special committee for reviewing district boundaries current draft is still splitting the Santa Cruz County congressional voting power for the 15th district, and the ability for our local voters to be fairly represented as a whole. I am really upset about my vote never being counted! I live on Park Ave. in Soquel and I am excluded from my right to vote every year! PLEASE review the districts again! More fairly. Thank you.

Subject: Splitting our county with the proposed boundary will underrepresent Santa Cruz County

Message Body:

I am very concerned as a voter, government employee, and small business representative for our representation of Santa Cruz County in the State Assembly.

As a Cabrillo College employee who provides small business assistance, we are dependent upon, and compete for, state and federal funding which is often influenced by our representatives.

My job is at stake- our collective voice WILL NOT HAVE FAIR REPRESENTATION if you split our county. Currently the program director and I have different representatives! The local Community College, Small Business development and job sustainability will need strong senate representation for our survival and success in this economy.

PLEASE RECONSIDER THIS BOUNDARY FOR YOUR JULY 14th VOTE.

OUR VOTES ALSO SUPPORT: Grant and research organizations, both within the college systems and other government groups such as NOAA and USGS; infrastructure from highways to state parks is influenced by the advocacy of state and federal representatives;

regional planning, from the air district and watershed management to transportation and housing reflect the engagement of elected state representatives.

Thank you for hearing my concerns,

Terri Cesari,  
Small Business Development Center  
at Cabrillo College
