From: Dennis Mihalka <[REDACTED]>

Subject: Redistricting grossly unfair

Message Body:

Please be aware of the political nature of both the population size and liberal tendencies of the coastal region as compared to Shasta County. Shasta will be overwhelmed with both and have no voice whatsoever. At least, with Shasta being included with the Sacramento Valley...which it is geographically and politically very much a part...Shasta citizens' votes have a voice. To place Shasta as the map shows will disenfranchise a majority of the citizens of Shasta County. Although this may be the intent, it appears a case of neutralizing the voice of Shasta county by gerrymandering the district in such an obvious way.

Thanks for reconsidering this map and the representation of and for the citizens of Shasta County.

Dennis Mihalka

To: [REDACTED]

Gentlemen and ladies,

I am a citizen and a part of the I-5 corridor community and DO NOT WANT TO BE PART OF THE COAST.

We have NOTHING IN COMMON with them and our representation will be diminished if we are put in their district. I therefore object to be put in the coastal district.

Please update me as this redistricting process continues. Thank you.

I am a concerned and active citizen in public affairs,

Linda G. White

To: [REDACTED]

I wish to voice my disapproval of a proposal to place Shasta County in a new North coast Voting District. Historically, Shasta County does not have a commonality with the North coast Region. We are part of and commercially tied to the I-5 corridor. The North coast population is tied to the US 101 corridor. Therefore, other than all of us being citizens of California, the Central Valley and Shasta County have very little in common.

Thank you for considering my objection to this proposal,

E.A. Haslam
Shingletown, Ca. 96088

To: [REDACTED]

Hello!

I received this note about plans for redistricting the entire Northern California together into one section! Why? Not enough people to make enough votes?

Please keep the current district lines the way they are and leave Shasta County, which is not a coastal village but a integral part of the Core cities of the Central valley and transportation corridor for California, as it is!

If we want to be on the coast, we will drive the 2 hrs to be there.

Please do NOT integrate all the northern counties together, thank you.

Vincent Neidlinger
Redding resident
Shasta County

Sincerely,
Vince

Subject: Redistricting Map and Shasta County

From: Suzanne Tikker <[REDACTED]>

Date: Wed, 6 Jul 2011 09:14:45 -0700 (PDT)

To: [REDACTED]

To Whom It May Concern:

I have viewed the 20110701 Senate Visualization Map sent to me by another concerned citizen.

It would appear as though it is the intention of the Senate to redistrict Shasta County to be part of the coastal counties, rather than being part of the district that includes our neighboring counties to the south - Tehama, Butte and Sutter.

While I am not sure what the NORCO Not Over Bridge redistricting does for us as I can find nothing online about it, I cannot imagine that we would want to be lumped in with counties that do not have the same or similar geographic, environmental and populace base that we have in Shasta County. Our county neighbors to the south have at least extremely similar geographic and environmental bases that Shasta County has.

I welcome your comments.

Suzanne Tikker

Message Body:

I live in the I-5 corridor in a rural area with common interests with Siskiyou county and other rural areas. We have nothing in common with coastal towns or areas. They have nothing in common with us. I thought this was going to be done properly but it looks as if it's business as usual with your commission. I'm very disappointed to find that you have put our rural, inland area on the west coast.

Subject: Redistricting proposal

Message Body:

Including Shasta County in the coastal area of California does not give a fair representation of our county residents. The economic, geographic, and demographic aspects of these two separate areas differ greatly when it comes to representation. The amount of farmland in Eastern Shasta county, the industrial growth in the Valley area, and the recreational use of the entire county are issues that need to be addressed. Trying to lump these issues along with the Coastal area that strives to enhance their own issues would become a difficult task for even the most skilled politician. Please consider keeping Shasta County in their current district.

Subject: Shasta County District placement?

Message Body:

I am appreciative that the redistricting of the state is taking place yet living in Shasta County I am dismayed at a map I've seen that shows the projected new district places us with the coast region. Like many emails we receive this could be old news that has recently changed yet it is aggriuous if true. For that reason I am visiting here. The maps currently shown here as first draft seem to make sense, the one I have seen recently does not, I hope it is an old working version not something new.

Shasta County is along Interstate 5 in the center of the north state and has very little in common with the coast. I can't figure out why we wouldn't be in the same district as Tehama County and other similar areas to the north and south of us.

Consider this my objection to the new proposed lines with Shasta County being in the coast region and I appreciate being heard.

Eric Lewis
Redding, CA.

Message Body:

It has come to my attention that you are considering redrawing the district lines to make Shasta County a part of the coastal region. This would not be a good idea for the people of Shasta County. We are much more in line with the I-5 region in our needs and our policies. We are NOTHING like the coastal region and the two regions would not mesh well. Not only are we geographically separated, but the two areas have very different ideas and lifestyles. The representative would have a very difficult time serving two such divergent areas and someone would lose out on having their voice heard.
