**To:** [REDACTED]

As a resident of Shasta County, I vehemently object to any redistricting plan that puts Shasta County in a district with coastal counties. We have nothing in common with that area, including economy, agriculture, politics or anything else. Please do not let this happen.

 *Laron Johnson*

Subject: Error in Re-districting

Message Body:

I strongly oppose the proposal to include Shasta County in the coastal region. We are closely associated with the I-5 corridor and have absolutely nothing in common with the issues of the coast. To combine us with that area would plain and simply reduce the representation we have at present.

From: Margaret Cantrell <[REDACTED]>

Subject: Redistricting

Message Body:

It does not make any sense to include Shasta County in the coastal region. It has no commonality with them. I understand this is in response to Siskiyou County's displeasure but half of Siskiyou County with it's small (very small) population makes more sense than Shasta County with its considerably larger population and it's ties to the central valley's issues.

From: Linda L. Roberts <[REDACTED]>  
Subject: Redistricting Proposal for Shasta County

Message Body:

Dear Sirs:

Shasta County has very little in common with Humboldt, Mendocino, Del Norte and other coastal counties. Weather, climate and topography cause these counties to have different needs than Shasta County.

Shasta County has much more in common with the high desert areas of Siskiyou, Modoc, and Lassen counties because of the dryer climate and winter snowfalls and share growing seasons with Tehama, Butte and Glenn and other counties along the I-5 corridor.

Please do not redistrict Shasta County in with the coastal counties or true representation for Shasta County would not be adequate.

Subject: Shasta County NOT similar to coastal district

Message Body:

I am a 10 year resident of Shasta County, and just saw a map that proposes to redistrict Shasta with Humbolt, Mendocino, Lake, Sonoma, and Del Norte counties. While I currently work in Shasta County, I have been to most of the north state counties for recreational purposes including fishing, hunting, and equestrian activities.

Shasta County's economy and lifestyles are much more consistent with the I5 corridor and north eastern counties of the state. Please keep Shasta county in a district including Siskiyou, Tehama, Modoc, and/or Lassen Counties.

Subject: Leave Shasta Alone

Message Body:

Shasta County shares nothing in common with the North Coast district area. We are, and always have been, a part of the I-5 corridor and the upper Sacramento Valley. I am strongly opposed to Shasta County's inclusion in the coastal district. Inclusion will adversely affect our representation and our ability to influence legislation passed by the totally dysfunctional legislature in Sacramento. Members of the Commission are NOT elected, so don't get the idea that you know what is best for us, you don't.

From: Mr. & Mrs. Howard Covington <[REDACTED]>

Subject: Redistricting

Message Body:

Shasta County is anything but a coastal area. With a large National Rec. area, water problems that face us from the use of water from our large dams and the Sacramento River, we need elected people who are very familiar with the problems and difficulties we in Shasta county must deal with. The I-5 corridor brings with it it's own set of unique problems requiring a hands on approach from local and regional officials. Keep us central and not coastal with regard to redistricting.

Thank You!

Howard Covington

Subject: Redistricting

Message Body:

We in northern California are getting little enough representation as it is. We are the ones who have to care for the natural resources of the state, and yet get very little input. At the redistricting meeting in Redding, the representative from Yolo County was the one farthest north. That is too typical.

I grew up in Humboldt Co. I have seen what has happened to it in the last fifty years. God's country has gone to the devil. Now you want us to be thrown in with these people who have done so much damage to that county? We may have once had a commonality in our logging and tourism, but it has now become a member of the drug triangle. We here in Shasta County see enough of our money going toward fighting and cleaning up the results of this illegal industry. It is not safe to hike, hunt, fish or camp in many areas because of the danger of booby-traps or getting shot. We have a right to protect our property, families and selves from this scourge on society.

Even though our predicament is far from fair, it may be better to deal with the devils we know rather than those we don't. We do not want to be cast in with the coastal areas because of the prevailing conditions there.
