Dear Commission,

You must change the maps for the 31st and 35th congressional district. The commission has violated the Voters Right Act by diluting the majority of Latinos in the Congressional 31st district by moving most of Fontana to the 35th CD. Attached is a logical adjustment which you must accept to stay legal and honor communities of interest.

You can adjust the message as you see fit. We must get as many people as possible to send the map and their own message to the commission. Please keep politics out of the message. Communities of interest is very important in the message and of course the Voter Rights Act.

As a resident of Rialto we must be given that same opportunity to keep our community in one Congressional District just like other cities. Thank you for your time and consideration.

Councilman Joe Baca, Jr.

this is a map i pray you take into the realm of reality do to the fact that colton needs to stay in the congressional district connected with san bernardino rialto and fontana. upland i have no clue as to how you think it is related to colton i lived here all my life and nothing connectes us to upland map wise school districts or even commonalites nada. one other reason is there has always been a piece of colton represented by a neighboring congressman "Lewis" not once ever has the man stepped foot in colton or aided to any types of needs for colton. if you dont change the maps colton is nothing more then a step child and will suffer tremendous loss when our city is fighting as many others to regain stability and it wouldnt of been possible with out our strong support of the 43 so please look at what im sending i beg you

thank you
