To Whom It May Concern:

My name is Richard Sierra Jr. Business Manager of Laborer's International Union of North America local 783 [REDACTED] San Bernardino Ca, 92408 our union has many members who reside in the areas that are being looked at as part of the current redistricting plan it is our opinion that the members of local 783 who reside within these areas of San Bernardino county Ca would be better served if the district would be allocated as per the map enclosed (please see attachment).

Should you have any further questions please do not hesitate to contact me.

Regards,

Richard Sierra Jr.

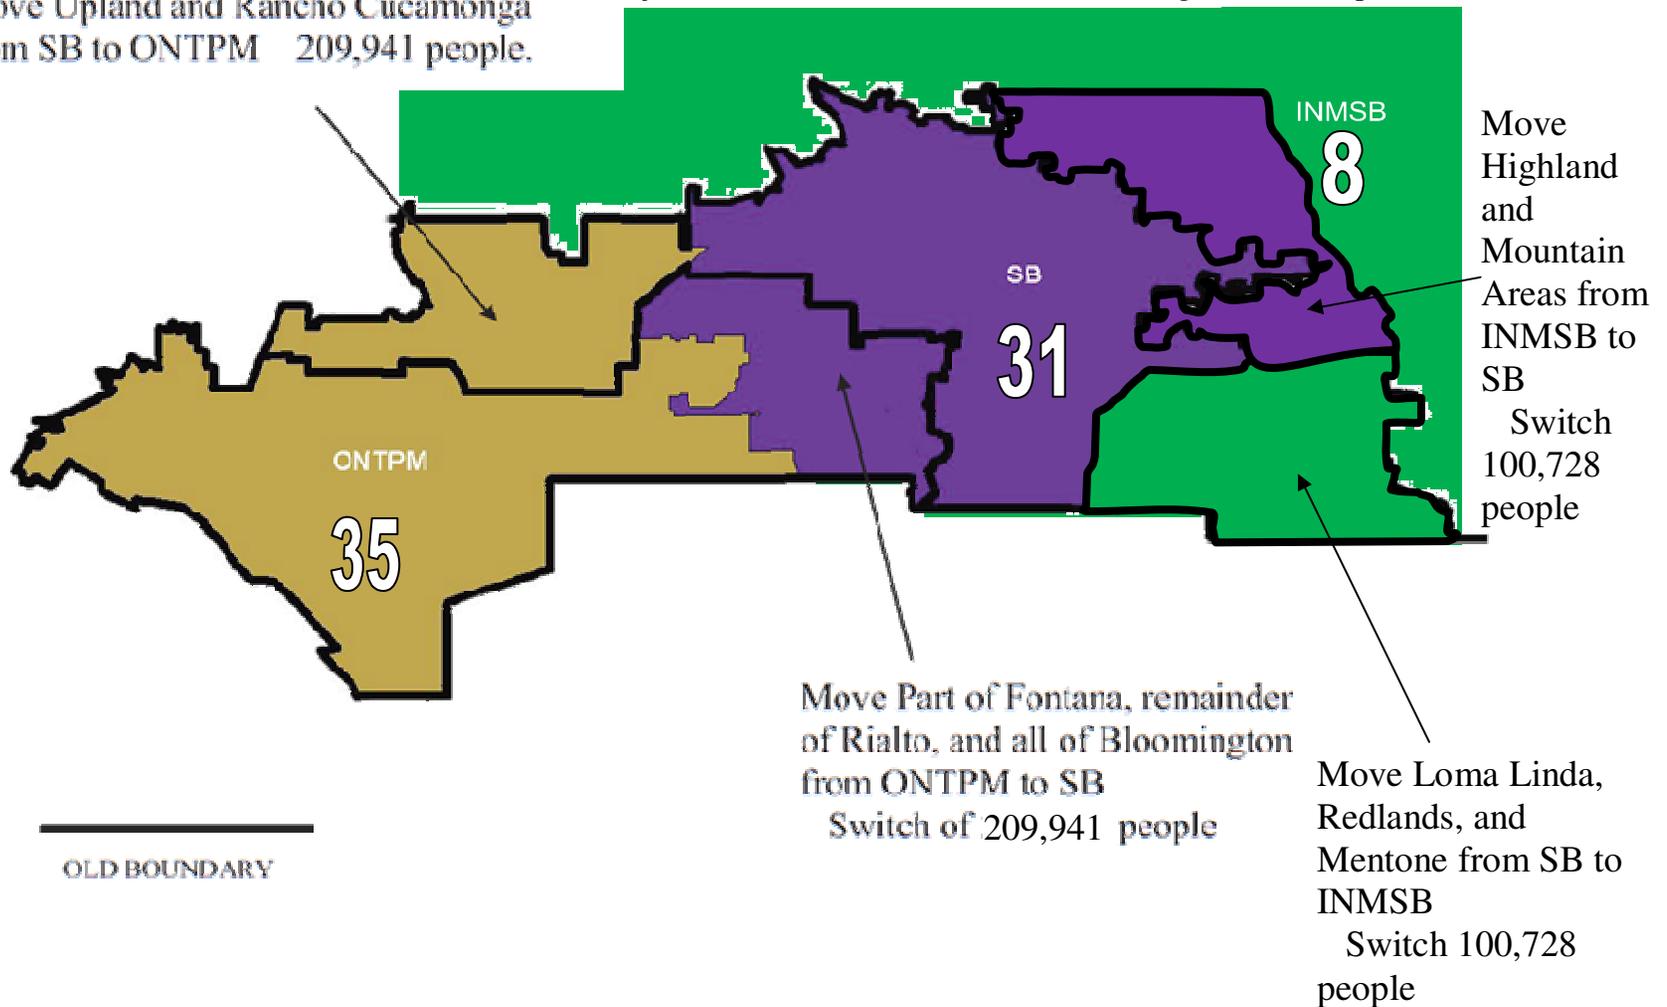

Business Manager LIUNA Local 783

Subject: New Redistricting Lines

Message Body:

To: Redistricting Committee

I am writing this letter to let you know that the new lines drawn have really put the High Desert in a turmoil and it seems like we in the High Desert are the Step-Children of this whole process.

We have been represented by Congressman Jerry Lewis for many year and the people in the High Desert feel very comfortable with his representation. We feel that he is the man for this area because the people are very happy with his job that he has done for us and i think it is totally unacceptable and not cost effective to start another district and add another Representative to the already overwhelming Government payroll that is already on the books and the government that is having problems paying their bills already and then you want to add another district to cover the High Desert when our Congressman Lewis is doing a fine job and we don't have to worry about another pay check for the government to pay when they can't pay the bills they already have. They don't another reason to take away benefits for the Seniors and the Active and Retired Military who already are caring enough of the burden as it is.

The new Redistricting Map makes no sense to add more districts and more Government payroll.

I think that the districts that we have with the 41st District should be left alone and let us be happy with the support we get from our Congressman Lewis and his Staff in Redlands and Washington.

Thank You

Eugene H. Doucett, MSgt, USAF., Ret.

You must make an adjustment to the maps for the 31st and 35th congressional district. The commission has **violated the Voters Right Act by diluting the majority of Latinos in the Congressional 31st district by moving most of Fontana to the 35th CD. Attached is a logical adjustment which you must accept to stay legal and honor communities of interest.**

First do what is necessary, then do what is possible, and before long you will find yourself doing the impossible.
