The section between Colfax Ave. and the 170 Freeway is part of Valley Village, and should remain so. Colfax is a small street, and by creating a boundary there rather than the much larger freeway will separate a small section of our close-knit community from its local public schools and the rest of Valley Village from its popular neighborhood park. The map that I have drawn is Valley Village. Feel free to read more about our community at our websites [myvalleyvillage.com](http://myvalleyvillage.com) or [valleyvillageha.com](http://valleyvillageha.com).
