Message Body:

I cannot believe you are trying to sneak this past the citizens of Ventura County. Do you have any idea what the financial impact will be on us if you move us to LA county? Our sales tax, property tax, water bills, utility bills, home insurance, auto insurance and everything else will go up. That's thousands of dollars a year, how in God's name will we be able to absorb an impact like that? I have news for you, we won't be able to and you will drive the rest of us into bankruptcy. Thanks! Brilliant! You must be brain surgeons!

Do not redistrict parts of Ventura County with a district of Los Angeles County. Ventura County is a unique place and we want to keep it that way. Any association with Los Angeles County would be an affront to the registered voters of Ventura County.

Message Body:

I moved out of L.A. County 20 years ago because I wanted specifically to live in Ventura County. I love living here in a smaller community with a greater sense of neighborhood and cleaner environment. I think Ventura County officials are doing a wonderful job in keeping our County safe and clean...I cannot say the same for the officials in L.A. County. Do not make us a part of the Los Angeles County

Message Body:

I do not support redistricting Simi Valley, Thousand Oaks and Moorpark to LA County. A great portion of our tax dollars would be repurposed to try to dig LA County out of the mess they've created and our community would suffer. You see it happening everyday right over the hill in the San Fernando Valley.

I have been a resident of Simi Valley for 7 years now and a resident of Ventura County for 16 years. I live here for a reason. I live here for the reduced cost of living, tax breaks and the overall safety that Ventura County has. I rest assure that my son is safe on the streets of Simi Valley. I am TOTALLY against this idea!!!!

Message Body:

I have lived in Los Angeles County before. That is WHY I moved to Simi Valley and Ventura County. Simi Valley belongs in Ventura County. I live just adjacent to Wood Ranch. How come THAT community would stay in Ventura County, but mine would not? We have little in common with Santa Clarita, the Antelope Valley and the San Fernando Valley. That means that Simi Valley City Hall would be lumped with those other cities? It makes no sense. I am strongly voicing my opposition to this ill-conceived idea.

We are opposed to the new lines drawn by the Redistricting Commission. Simi Valley should stay with the rest of Ventura County in any district they are put into. We should not be split from Ventura County and we definitely should not be lumped with any part of Los Angeles County for representation.

We moved away from Los Angeles County and into Ventura County in 1984. We moved to escape the crime, high taxes, poor service, high insurance rates, over crowding that permeated Los Angeles. We do not want to be moved from Ventura County and back under the control of Los Angeles County. We object to this and hope you will reconsider.

This is madness and simply an attempt to once again "Put it to" citizens. I/we worked long and hard to be able to reside in an area relatively free of crime and in an environment where everyone pays their share. Putting Simi, Moorpark and Thousand Oaks into LA is just a way to get us to pay for the unbelievable give away programs that have been instituted in LA - in particular the city of LA. I am retired as are many of our residents and the last thing I need is higher taxes, higher utility rates, increased crime and who knows what else. I am quite honestly tired of people with their hands out - I am having trouble supporting myself - I don't need anyone else asking for handouts!!!!!!!
