### Congressional Districts

#### Assumptions for current districts

Did not cross GG Bridge, but may need to (COI majority don't cross;  
some COI suggests Southern, urbanized Marin could be paired w/SF; also  
Marin is left out of Sonoma/Napa/Lake/Mendocino COI)  
Do not break Bay Bridge (COI mostly silent - a few negative comments &  
one positive)  
Do not break San Mateo Bridge (COI silent)  
Carquinez Bridge - OK to break (COI for both options)

Benicia-Martinez Bridge - OK to break

#### COIs split in current districts

#### N CC split from rest of CC

Population problem that spilled over from the Central Valley - may be  
able to pull from Hercules/Pinole instead? Q2 is working on it. This  
was the attempt not to split Antioch or other aspects of NE area.  
Tried to grab Benicia but that was not working.

#### Pittsburgh split from Antioch

Both too large to keep them intact...this is where the pivot  
happens.This was how we were able to keep them whole.

South Alameda County/Tri-Cities (Fremont, Newark, Union City)  
American Canyon split from Napa  
Mendocino/Lake/Sonoma/Napa wine-growing region  
Santa Rosa (county seat) split from Sonoma (population)  
City splits for population: Richmond, Menlo Park - please correct.  
San Mateo coast  
Valley of the Moon/wine-growing region

Potential population exchanges

Consider removing Western Siskiyou from North Coast district-  
conflicting testimony about keeping county whole (with east) or  
maintaining split with coast. Removing it may allow keeping other COIs  
whole in Bay Area.

Consider creating 2 North Coastal districts: add in Lake & Northern  
part of Napa/redistribute Sonoma - Put American Canyon in Napa in a  
Coastal district (not with Yuba!) and Santa Rosa (county seat of  
Sonoma) in a Sonoma district if possible.

If we cross GG Bridge, including Sausalito/Marin City no further north  
than San Rafael in SF-based district (separating urban/suburban from  
rural Marin), does that give us flexibility to preserve other COIs?

Tri-City COI

Richmond whole (and in Contra Costa if possible)  
San Pablo & El Cerrito whole - with Richmond if possible  
Menlo Park whole and with Stanford area COI (Palo Alto, Atherton,  
Woodside, East Palo Alto)  
East Palo Alto: can we pair this with Redwood City?  
San Mateo Coast whole (put Montara with rest of Coast)  
West Valley cities: Mountain View, Sunnyvale, Cupertino, Santa Clara  
Silicon Valley "Golden Triangle"

Check South Bay Redistricting Coalition map; how does this affect SF (ADs)?

Contra Costa North of San Pablo could go with Vallejo/Benicia  
Preserve Eden Area: San Leandro/San Lorenzo/Ashland/Castro Valley  
Create East Bay Coast & Tri-Valley Coast N/S districts (to preserve  
Tri-Cities & Tri-Valleys COI)

Fix grab of El Cerrito, San Pablo over the East Bay hills; go north

Swap Davis with Lodi?

review public comments from the Bay Area tour--you have permission to  
view these as potential options that may produce more compatible  
districts with other regions

On Tue, Apr 26, 2011 at 2:12 AM, Karin Mac Donald <[redacted]> wrote:

good morning, commissioners  
may i bug you for additional feedback on the attached draft? i messed up the table headers when i added page numbers but i think you can see what we're trying to do. is this helpful for l.a.?  
i've also developed a 'commission cheat sheet' statewide, which shows all the counties and cities that are smaller than a district (ad, sd, cd), which i'm also attaching. please let me know what you think. i'm planning on doing a report for l.a. like that if you approve. in theory, this shows which cities and counties you might be able to keep whole depending on the district type.  
i appreciate your help and please let me know if i should stop sending things your way!  
thanks  
.

Hello,

Attached please find draft SD pdfs for Regions I, II, and III.

Again, I will send the SD pdfs in three separate emails due to file size.

Thanks!  
Ana

PS. I know this is out of order...I will forward the CDs for Regions V-IX as soon as possible, but did not want to wait on the SDs in the meantime.

hello commissioner ontai,

thank you for your kind words! i told my team to take a few, well deserved, days off and it looks like they are following orders :). i spent most of saturday sleeping so i'm starting to feel like myself again!

my apologies for the late reply to your email - i was not ignoring you! i have been thinking through the rest of the calendar and i am glad you raised the topic of the tbd dates because it made me realize that there are some issues with the calendar that should be addressed sooner rather than later.

starting with the tbd dates of 7/13 to 7/20: i do not remember that anything specific was planned for those dates - just that they were put in as placeholders in case the crc wanted to meet. given that there is very little time between the 2nd and the 3rd drafts, any input received during that time should really focus on things like 'where' a city/community /neighborhood/etc should optimally be split: the second draft will have different population deviations than the first draft and because of that, many more cities and communities will have to be divided. because these are micro-level decisions and time is too short to visit every area, i would suggest that \*if\* the crc decides to schedule more input hearings (and i am not sure that there is much value in it at that time in the process), there be 1 or 2 in southern california and 1 or 2 in northern california but not more than that. even with only 2 or 4 additional hearings, we might run out of time on everything else we need to do. i think it would be more beneficial - certainly more equitable since we could not possibly get close enough in terms of driving distance to most californians in this short period of time to make it easy to see the crc in person - to *only* ask for *written* input about where lines might most appropriately be placed within jurisdictions, and reserve the available time to look through the written input and not travel.

on that note, i also think that we should seriously consider setting a deadline for public input that is reasonable given the volume of input we've received. there is no sense in asking for input if nobody has time to read and consider it. so again. looking at the calendar, if the crc decides NOT to hold additional public hearings then i would suggest cutting off public written comments on july 12, the end of the public review period, and using the next 7 days to review and collate comments.

furthermore, looking down the calendar, i noticed 2 line drawing dates on 7/22 and 7/23 - i think the crc should consider pulling those two dates forward to 7/19 and 7/20 for multiple reasons:

one - it will give line drawers the opportunity to implement the changes the crc directs

two - it will leave much needed time to clean up maps, run reports, and make sure there are no last minute problems with the maps for the final release

three - it will provide time to format maps

four - it will provide time to work on the final report

i would also advocate that these two days (7/19 and 7/20) be 'live' line drawing days so that q2 does not have to make any additional changes outside of necessary technical corrections that arise during report running (i.e. a block was found to belong within a city boundary but was excluded in error, etc. etc.), and to 'hunt' for population blocks (see

below), because i would like for the crc to see the maps as finished as possible on those days to avoid surprises. there really is no time in the following week before the final maps are due, for q2 to meet with the crc once more to go over maps because we will be running reports already, and any further changes, even minor ones, would put us back to square one.

please note that the second draft maps will take more time to prepare than the first drafts because of the population deviations. for example for congressional districts, one literally has to 'hunt' for blocks that have a certain total population number in them to get to the deviation. this can cause a lot of shuffling on all borders. this will not be as extreme for the state districts but still pretty time consuming.

so now i'm done with my thoughts about mid/end july. let me go back to june and the beginning of july:

currently, i see that line drawing meetings are scheduled on w 6/29, th 6/30 and fri 7/1 and then during the next week on 7/5, 7/6 and 7/7 - the last day being the 2nd draft release date. none of the last 3 dates will work, partially due to some of the issues explained above (deviations taking more time, etc) but also because, again, we need time to implement changes, run reports, make maps. given that, 7/3 is really the last day on which the crc can give direction to q2 and have it reflected in the 2nd draft maps. hence, i would suggest to move the 7/1 line drawing day to 7/3. this will give q2 time to implement the changes requested on 6/29 and 6/30. final requests can be implemented on 7/4, 7/5 can be used to equalize populations after running reports, and 7/6 will be another long map making day.

i hope all of this makes sense.  
please let me know what your thoughts are about this.  
thanks and happy sunday evening

.

Hi Karin,

I pray you have had some time to rest. Thank you again and to your great team for putting the maps together on time for the Commission to meet its deadline. It is truly remarkable considering the overwhelming challenges of time constraint and team decision making.

As you know, our Outreach Committee must make a recommendation to the Commission on 6/16/11 on venues for the TBD dates, which are from 7/13 to 7/20. These are "to be determined" dates following the release of the 2nd draft maps. Like the first round, I would like for you to recommend how those dates should look like based on where we will be at that time, the amount of time you will need to follow-up on the linedrawing directions. Granted, this will be your best guess, but it will be very helpful to complete the schedule. Please let me know if you have any questions. Mahalo, Gil

We'll need to schedule some time to finish up the potential section 2 visualizations (Assembly/Senate) for L.A. County. The following look like possible times:

- Monday, 6/27, 10 am - 4 pm
- Tuesday, 6/28, 10 am - 3 pm

Sunday, 6/26 is not desirable, but Nicole is available if we can't work out another time.

Can you let me know your availability?

Thanks,

Angelo

Angelo...et al.

Tuesday..would be best for me. My wife is coming home from a two-week visit to the grandchildren -- grandfather could not go:-(. Would like to spend some time with her on Monday...I'll spend the night in the Bay Area on Monday and be ready early on Tuesday on my way to Sacramento.

Vince

I could do Tuesday between 9:30/10-12:30. Monday is also not good for me - my 4 year old stepson arrives for a visit so life will be momentary mayhem. May we also consider using some of Thursday, since CRC won't be in session, or will that be cutting it too close?
