To whom it may concern:

I have known Andre Parvenu for 15+ years. Andre and I formally worked together at the Los Angeles Metropolitan Transportation Authority (MTA). In my capacity as Deputy Executive Officer, Construction and Executive Officer, Procurement we crossed path on multiple projects. Andre was always available to assist with the resolution of issues with an optimistic outlook. In addition to working with Andre I have seen him at a number of community meetings which were outside of his work scope but that he had a keen interest in a positive outcome for the community.

I find Andre to be an engaging and open personality with a skill set that would be of benefit in the position of a redistricting commissioner.

Sincerely,

Gwendolyn W. Williams
