To: Commission, Prop11

Subject: Notice of meeting schedule

It would be very helpful to those of us watching with some anticipation the work of the commission is you could find a little corner of the website for someone to post or even send out a tweet, about when meetings will resume on an ongoing basis. Unless you watched to the end Friday or know someone who did, you have no way of knowing when the meeting will resume this week.

Thank you for your consideration. SMS
