Subject: Redistricting Commission

This is to request that you consider replacing Michelle R. DiGuillio-Matz with Byrd Lochtie on the final list of six candidates for membership on the Redistricting Committee. Byrd Lochtie is an exceptionally well-qualified candidate who is highly respected in Northern California where she has long been active as an outstanding leader in various civic enterprises. Adding Lochtie to the Redistricting Committee will add an unusually talented and respected person and will provide a representative for a part of the state which seems, so far, to have been left out. This is a way to correct what must surely have been an oversight. It's hard to imagine that one could think the northern part of the state should not be included in redistricting considerations.
