To: votersfirstact@crc.ca.gov

We want the redistricting to be done on a TOTALLY NON-POLITICAL BASIS. To achieve this, we propose the drawn lines use Country and City limit lines; and when Counties need divided, use City limit lines. When the few Cities need divided, use postal zip codes.

We do not want any individuals coming up with other kinds of lines, due to the fact that individuals have biases and political affiliations which they will try to enhance.

Lines drawn should be identical with the existing County lines, City lines and Postal Zip Codes when necessary.

Thank you.
