

March 16, 2011

Dear Commission Members:

I have learned Mr. Doug Johnson, is attempting to win the contract to be the line drawing consultant to the California Redistricting Commission. As a tax paying citizen of California, I am respectfully requesting Mr. Johnson not have the power of this position. His past examples lead me to believe he may not be viewed as an independent voice for all Californians.

Thank you in advance,

Jose L. Hernandez
