Subject: PUBLIC COMMENT - Input meeting transportation
To: votersfirstact@crc.ca.gov

Commissioners/Staff,

Congratulations on establishing a schedule for your public input meetings. In particular, the suggestion of having the Commission and Staff travel each route together in a tour bus should result in a significant expense savings.

But, there is a concern when the whole Commission and key staff are transported in the same vehicle. This is not to suppose that an accident will happen, only that you must be diligent to take every precaution to avoid one. The "all-your eggs-in-one-basket" analogy comes to mind.

Please carefully choose the company(ies) you hire and ensure that the company reputation and track record is spotless and that their vehicles and drivers have been recently inspected and approved by the CHP.
