Rob:

I would hope that you would realize that the most northern meeting you have for the redistricting meeting is in Santa Rosa. That is really in Central California when you consider there is another 300 miles to go to the Oregon border. I would hope the commission would gather input in the real Northern California, in Crescent City. I could even help you facilitate the meeting and make arrangements.

I believe that it's critical that our voices be heard. You even have a meeting scheduled for Region 8 but no location has been selected. How about scheduling it for us?

Bob
