I am writing this today because I want to be on the record to state that Dana Rohrabacher of the 46th District does not properly represent all of his constituent areas. I don't know why they have lumped Long Beach in with the other areas that he covers. I read in the L.A. Times that this was one of the areas that you'd be looking at for re-districting. Please review his district and you will see that Long Beach should not be lumped in with the rest of his district. He in no way is concerned with our interests. Thank you for looking at this issue.
